Hello!

Mother, wife, business owner, artist, nature lover, are just some of the words I would use to describe myself. I am so incredibly lucky to wake up every day and do what I love! As a mother myself, working with children is my absolute favorite type of photography. The pure silliness that occurs while creating beautiful memories and snuggling babies is always pulling me back to my camera. I began my photography journey in early 2017 and am so thankful to the families that have allowed me the opportunity to work with them while I am growing my business. I hope that over the coming years I am able to continue using this beautiful passion of mine to help many more people capture the beautiful moments of their lives. .

Sessions with me are laid back and fun! So don't stress! I hope to capture your real moments and all the beauty the comes with it.

with love

JENNA

Maternity

Those amazing memories of motherhood begin before your baby is born. This is an experience we are blessed with for such a short time in our lives! This is a time that you will treasure forever. You'll always remember your baby's first heartbeat, feeling the first kick and those tiny little hiccups. But will you remember your beautiful baby bump or how gorgeous you looked?

What to expect

NEWBORNS

Your newborn session will be a special milestone in your baby's life. I want to help you tell the story of your new baby and create a calm and peaceful environment during our time together. From all of the tiny details to the connection your family has with it's newest addition, it is my goal to capture the images that will freeze this small moment in time to be cherished forever.

SESSION DAY

You should expect to arrive 15 minutes before your scheduled time to allow for a feeding. The studio is kept at 78 degrees in order to keep your baby warm and comfortable.

Newborns can lose their body temperature quickly, especially when unclothed, so we need to be sure they are kept warm at all times. You may want to dress in layers so that you are comfortable too. Feel free to sit back & relax!

What to wear

YOUR BABY

Your baby will be wrapped or naked for the session. We have all of the wraps, bonnets, hats, and headbands needed for a wonderful session.

PARENTS AND SIBILINGS

For the best outcome, I recommend cream, ivory, gray or other muted/neutral/earthy tones for mom, dad and siblings. Textures photograph beautifully. We also have a studio wardrobe for moms to use. Ask for details.

FAQ

When is the best time to schedule my newborn portrait session?

The best time to schedule your session is during your second trimester. This way you can be rest assured that your newborn photo shoot will occur within 2 weeks of birth, the very best time to get the sweetest photographs!

How do I book without knowing my baby's birth date?

We will select a session date based of your due date and can adjust if need be based on when baby is actually born. Once your baby is born and you are ready to go home, all you have to do is send me an email and from there we'll schedule a definitive session date and time within the first 5-10 days of your baby's arrival.

How soon should I have my newborn session after giving birth?

The sooner the better! Newborns tend to stay sound asleep a few days after birth and because of this we are able to gently move your little one into sweet poses. After a couple of weeks, this is not as easy to do. After the 14 day mark babies begin to stretch and the poses won't be as easy to accomplish.

Can I incorporate sibling and family photos with my baby?

Absolutely! Photographing your little one surrounded by family is an incredible experience for everyone involved.

How long will my newborn photography session take?

Your session will take between 2-3 hours depending on how many breaks baby needs. The atmosphere is very relaxed and comfortable and the pace of our session will be determined by the baby.

My baby is already born, am I too late to schedule a Newborn Session?

Absolutely not! I would love to work with you! However the best snuggly baby pictures are normally in the first two weeks. After those first two weeks it's still possible to achieve, with a little more lifestyle photos.

What is the turn around on my images?

You will receive your images 3 weeks from your session date and be able to view them in an online gallery set up just for you!

Where do the studio sessions take place?

Your session will take place in my studio, in Berlin NJ. Address is provided when you book your session. Just bring yourself and your little bundle of joy and rest assured that the studio is fully stocked with all the necessary props, and toiletries. Feel free to bring snacks or anything to keep you comfortable throughout your session.

Who supplies all the cute hats/headbands for the baby?

I do! In my studio you will find a large supply of hats, headbands, and wraps that we can play with.

What happens after my session?

After your session we'll discuss when you when you can expect your photographs to be available for viewing in your online gallery.
