My Style

My favorite part of my job as a Boudoir Photographer, is helping women feel absolutely gorgeous! Boudoir has such a “sexy” feeling behind it, and TRUST ME, if you want to leave the studio feeling sexy, we can make that happen! But I truly love the idea of empowering women and making sure they feel confident, and beautiful!!

Every women who comes into my studio is different, and it is my job to learn about you, your insecurities, your favorite parts about your body, and make you SHINE!

During the session we'll do a little bit of everything - I will walk you through some super fun posing that will highlight those favorite parts of your body. I will also be sure make you laugh tons, and capture those natural smiles from your session too!

Young Sessions

Location

Most Boudoir sessions take place in my studio in Berlin, NJ. I am 100% open to using other locations, and even outdoors! So, if there's somewhere special you're thinking of having your session, just ask and I will see if we can make it happen!

What To Bring

Each Boudoir package is based on a 1 hour session, so I always suggest 3 outfits, but if we have time for some more we will absolutely use them! Also bring yourself some water and even a light snack if you'd like.

Timing

My favorite time to schedule Boudoir sessions for is in the evening. Lighting in the studio isn't a big deal, but I just feel like it's easier to be sexy in the evening. Sometimes schedules don't always line up like that, and that is totally fine! We can schedule them for any time of the day.

Preparation

There are a few things I suggest doing to prepare for your session. First, stretch! I am going to ask you to get in some strange back bending positions. Second, try on all of your outfit options before you come to your session. Third, if it's in the budget, get your hair and makeup done. My girls are amazing and you'll feel your best!

It's All In The Details

Your outfit choices will make a big difference in both how you feel, and the final product. Feel free to send me your outfit ideas, and ask questions before your session. And if there are any props you're thinking of bringing, let me know too. (Heels, pearls, fishnets, etc.)

5 Wardrobe Tips

1

Bodysuit!

A good versatile bodysuit is a must at any boudoir portrait session. It flatters everyone, and is masterful as disguising some areas you might want to cover a bit.

2

Kimonos / Dusters or Bathing Suit Cover Ups

In my rabbit hole Amazon shopping I stumbled across some awesome kimonos that look INCREDIBLE over a cute lacy bra and indie set, or even bare for a semi nude boudoir portrait. They are extremely versatile and seriously hide things

3

Undergarments

Ladies... I can't stress enough the importance of the fit. Don't worry about the size on the tag, what matters is that it doesn't cut into your skin, leave red marks or simply look too tight. Looser is better when it comes to photography.

4

A oversized sweater

I love pairing a big chunky sweater with cute lace panties and even knee high socks. This is also cute with your mans work shirt or a team jersey

5

Just be yourself!

Truth be told the more comfortable you feel with what you are wearing - the better your portraits will come out. Boudoir photography is not about having the best body, being the thinnest or having the least imperfections. It's about confidence and feeling good in your own skin.

Shower Set Add On

The Shower Set is perfect for those who want a different vibe to their shoot. My in studio shower set guarantees steamy sexiness without you getting wet at all! It implies that wet-sexy feel to your photos. The Shower Set is a perfect mixture of steaminess and classy! You can shoot this set nude, wearing a white shirt, or your favorite lingerie set! The Shower Set is an additional set to your photo session, of course including all of the beautiful sets that your photographed before hand!

faq

I'm really nervous. Is that normal? Do you do outdoor boudoir sessions?

It is definitely normal to be nervous for your boudoir session, so don't worry. In fact, I'd wager that about 99% of our clients are nervous when they first get started. However, within five or ten minutes of the session, most women not only feel comfortable, but confident and beautiful.

If it's something your interested in, let me know and we can absolutely make it happen.

How do I know how to pose?

We've totally got you covered there. We know all the tips and tricks to create the most flattering angles for women of all shapes and sizes. Don't you worry about posing, we'll help you pose everything from your toes to your chin.

How long does it take to get my photographs back?

I work to have your images to you within four to six weeks of your session date.

Am I allowed to bring alcohol to help loosen my nerves? Do I have control over who sees my images?

No, unfortunately alcohol is not allowed in my studio.

Absolutely. When you book a session, we'll discuss all of this. I respect your wishes and won't post or share any images if you prefer they stay private.

What should I bring to my boudoir session?

For sessions, I suggest three but if we have time for more we can use them! You can bring any props you may want to incorporate. Props run the gamut from hair accessories to masquerade masks.

If you have some ideas, let's talk!
